उत्तराखण्ड शासन,

सेवा में,

समस्त जिलाधिकारी,
उत्तराखण्ड।

ऊर्जा अनुभाग-2,

देहरादून: दिनांक: 30 दिसम्बर, 2025

विषय:-विद्युत पारेषण लाईनों के निर्माण में मार्गाधिकार (Right of Way) सम्बन्धी समस्याओं के निराकरण हेतु विद्युत मंत्रालय, भारत सरकार द्वारा जारी दिशा-निर्देशों एवं अनुपूरक (supplementary) दिशा-निर्देशों को पिटकुल में अंगीकृत किये जाने के सम्बन्ध में।

महोदय,

उपर्युक्त विषयक मुझे यह कहने का निदेश हुआ है कि पॉवर ट्रांसमिशन कारपोरेशन ऑफ उत्तराखण्ड लिमिटेड (पिटकुल) के अन्तर्गत निर्मित होने वाली सभी प्रकार की 66 के०वी० एवं उससे उच्चतर विभव की पारेषण लाइनों के दृष्टिगत कृषकों/भूस्वामियों को भूमि, फसल एवं वृक्षों से सम्बन्धित दिये जाने वाले क्षतिपूरक मुआवजे के सन्दर्भ में ऊर्जा मंत्रालय, भारत सरकार द्वारा पत्र सं० F. No. 3/4/2016-Trans-Part (4) दिनांक 14.06.2024 के माध्यम से निर्गत दिशा-निर्देशों एवं पत्र सं० F.No.3/4/2016-Trans-Part (4) दिनांक 21.03.2025 द्वारा निर्गत अनुपूरक (supplementary) दिशा-निर्देशों का अनुपालन सुनिश्चित किये जाने की श्री राज्यपाल महोदय सहर्ष स्वीकृति प्रदान करते हैं।

2— भूमि क्षतिपूर्ति (Land Compensation) के मद में क्षतिपूर्ति की लागत की गणना उस क्षेत्र विशेष के जिलाधिकारी द्वारा निर्धारित सर्किल रेट के अनुसार की जाएगी।

उक्त आदेश राजस्व विभाग की सहमति से निर्गत किये जा रहे हैं।

संलग्नक:-यथोक्त

भवदीय,

6. COO, CTUIL, Gurugram.
7. CMDs of State Power Utilities/SEBs.
8. All Transmission Licensees through COO, CTUIL

Subject: Guidelines for payment of compensation in regard to Right of Way (RoW) for transmission lines.

Reference: (i) MoP letter No. 3/7/2015-Trans dated 15.10.2015
(ii) MoP letter No. 3/4/2016-Trans dated 16.07.2020
(iii) MoP letter No. 3/4/2016-Trans-Part (1) dated 27.06.2023

Sir,

The Ministry of Power, as referenced above, has issued Guidelines for the payment of Right of Way (RoW) compensation concerning transmission lines including those in urban areas. It is imperative to address the RoW issues effectively to expedite the construction of transmission lines and ensure timely completion.

2. After careful consideration of the matter, the Central Government has issued the following guidelines for determining compensation for damages regarding the RoW for laying transmission lines under Sections 67 and 68 of the Electricity Act, 2003, read with Sections 10 and 16 of the Indian Telegraph Act, 1885, in addition to the compensation for normal crop and tree damages. These guidelines are issued in supersession of the earlier guidelines mentioned in the references above.

COMPENSATION GUIDELINES FOR TRANSMISSION LINES

(1) **Applicability:** The compensation shall be payable only for transmission lines supported by a tower base of 66 kV voltage level and above, and not for sub-transmission and distribution lines below 66 kV.

(2) **Authority for determination of Compensation:** District Magistrate/District Collector/Deputy Commissioner shall be the authority for determining the compensation.

3/11/24

(3) **Determination of Compensation:** The compensation shall ordinarily be based on the Circle rate/Guideline value/Stamp Act rates of the land, except where the market rate exceeds the Circle rate/Guideline value/Stamp Act rates. In such instances, the land value shall be determined based on the prevailing market rate as ascertained by the District Magistrate/District Collector/Deputy Commissioner in the manner as may be specified by the State Government. The determined land value shall serve as the basis for compensation and shall be promptly communicated by the respective District Magistrate/District Collector/Deputy Commissioner.

(4) **Tower Base Compensation:** Compensation for the tower base area shall be 200% of the land value. The tower base area shall be the area enclosed by the four legs of the tower at ground level, plus an additional one (1) meter extension on each side.

(5) **RoW Corridor Compensation:** The compensation amount for Right-of-Way (RoW) corridor shall be 30% of the land value. Land within the RoW corridor, as defined in Schedule VII of the Central Electricity Authority (Technical Standards for Construction of Electrical Plants and Electric Lines) Regulations, 2022 (Annex-I), shall be eligible for compensation. This compensation will address the potential diminution of land value due to the presence of overhead lines or underground cables within the RoW corridor. No construction activity of any kind would be permitted within the RoW of the transmission line. States/UTs may decide higher rate depending on the area and urgency of the work.

(6) **Alternate Compensation:** In areas where land owner/owners have been offered/accepted alternate mode of compensation by Corporation/Municipality concerned under Transfer of Development Rights (TDR) policy of the State/UT, the licensee /utility shall deposit compensation amount as per (4) to (5) above with the Corporation/ Municipality/ Local Development Authority or the State Government concerned.

(7) **Areas with RoW constraints:** When laying transmission lines in areas with RoW constraints, various technologies can be considered to optimize the use of space. These technologies are outlined in the Central Electricity Authority (Technical Standards for Construction of Electrical Plants and Electric Lines) Regulations, 2022. Some options include: steel pole structures, narrow-based lattice towers, multi-circuit and multi-voltage towers, single-side stringing with lattice or steel poles, XLPE underground cables, Gas Insulated Lines (GIL), compact towers with insulated cross arms, Voltage Source Converter (VSC) based High Voltage Direct Current (HVDC) systems, and more. A cost matrix comparing these technologies is attached in Annex-II for reference by implementing agencies. This matrix can help them choose the most cost-effective option for each project.

(8) **Landowner Identification:** During the check survey conducted at the execution stage, the names of landowners whose property falls within the transmission line's Right-of-Way (RoW) will be documented. This process shall adhere to the Regulation 84(8) of the Central Electricity Authority (Technical Standards for Construction of Electrical Plants and Electric Lines) Regulations, 2022.

3/11

(9) **Compensation Payment:** Compensation payment shall be one-time and upfront. Whenever possible, compensation will be paid through various digital payment methods, such as the Aadhaar Enabled Payment System (AEPS) and Unified Payments Interface (UPI).

(10) **Standard Operating Procedure (SOP):** States/UTs and transmission developers should refer to the Standard Operating Procedure (SOP) at **Annex-III** for detailed guidelines.

3. The States/UTs may adopt these guidelines in their entirety or issue their own modified guidelines. In the absence of State Government guidelines, these guidelines issued by the Central Government shall apply for determining compensation.

4. This issues with the approval of the Minister of Power.

Yours faithfully,

(Om Kant Shukla)
Director (Trans)

संलग्नक - ९

F.No. 3/4/2016-Trans-Part(4)
Government of India
Ministry of Power
Shram Shakti Bhavan, New Delhi -110 001.

Dated: 21.03.2025

To

1. Chief Secretaries/Administrators of all the States/UTs.
2. Chairperson, CEA, New Delhi – with a request to disseminate the subject guidelines to all the stakeholders.
3. Additional Chief Secretaries/Principal Secretaries/Secretaries of Energy of all States/UTs.
4. Secretary, CERC, New Delhi.
5. CMD, Grid India, New Delhi.
6. COO, CTUIL, Gurugram.
7. CMDs of State Power Utilities/SEBs.
8. All Transmission Licensees through COO, CTUIL

Subject: Supplementary Guidelines for payment of compensation in regard to Right of Way (RoW) for transmission lines.

Sir,

The Central Government vide letter No. 3/4/2016-Trans-Part (4) dated 14.06.2024 has issued guidelines for determination of compensation for laying Inter-State Transmission System (ISTS) lines under Sections 67 and 68 of the Electricity Act, 2003, read with Sections 10 and 16 of the Indian Telegraph Act, 1885, in addition to the compensation for normal crop and tree damages (hereinafter referred as *RoW Guidelines*). As per these guidelines, compensation shall ordinarily be based on the Circle rates/Guideline value/Stamp Act rates of the land, except where the market rate exceeds the Circle rate/Guideline value/Stamp Act rates. In such instances, the land value shall be determined based on the prevailing market rate as ascertained by the District Magistrate/District Collector/Deputy Commissioner in the manner as may be specified by the State Government. However, many States have yet to specify the manner of determination of market rate, and land owners have raised concerns that compensation is still being proposed at unacceptable circle rates which are significantly lower than market rates.

Indy 21/3/25

2. This issue is more pronounced in urban and semi-urban areas, where District Collectors face difficulties in arriving at a fair market rate. Additionally, while land falling under RoW corridors can still be used for agriculture in rural areas, land in urban planning and urban areas cannot be used for development due to changes in land use. As a result, the 30% compensation paid for RoW in rural areas has been reported to be inadequate for urban and urban-planning areas, where landowners incur higher opportunity costs.

3. After careful consideration of the matter, the Central Government hereby issues the following supplementary guidelines for assessing the market rate of land for the limited purpose of payment of RoW compensation for laying of ISTS lines.

SUPPLEMENTARY GUIDELINES FOR DETERMINATION OF MARKET RATE AND ROW COMPENSATION FOR ISTS LINES

1. **Applicability:** These supplementary guidelines shall apply to Inter-State Transmission System lines only in cases where landowners have objected to the compensation because the Circle Rates are below the Market Rates. State Governments may adopt these guidelines in their entirety or issue their own modified guidelines. These guidelines shall apply in cases where State Governments have yet to specify the manner of determination of market value of land.

2. **Committee for Market Rate Determination:** The market rate of land shall be determined by the following Market Rate Committee (MRC) based on the valuation by independent land valuers:

- i. District Magistrate/District Collector/Deputy Commissioner or his/her nominee (not below Sub-Divisional Magistrate) - Chair
- ii. Representative of land owners - Member
- iii. Nominee of ISTS Transmission Service Provider (TSP) – Member

The District Magistrate/District Collector/Deputy Commissioner may co-opt upto two additional members as may be required.

Handwritten signature and date: 21/3/25

3. Land Valuation Methodology:

(1) MRC shall appoint two valuers—one nominated by the TSP and the other by the representative of landowners. The MRC shall engage the land valuers empanelled by the Insolvency and Bankruptcy Board of India (IBBI) as per the list available at website of IBBI (<https://ibbi.gov.in>). The valuers should preferably be from the same State or, if an adequate pool of valuers is not available, from adjoining States. The reference market rate shall be determined as specified below:

(i) If the difference in the market rates worked out by valuers is less than 20% over the lowest value, then average value of the two valuations shall be taken as the reference market rate.

(ii) If the difference exceeds 20%, MRC may negotiate the reference market rate.

(iii) Else, or if negotiation fails, then MRC shall engage a third valuer, and the reference market value shall be determined as the average of the two closest valuations.

(2) The assessed reference market rate shall serve as the basis for determination of market rate by the MRC.

(3) The professional fee/charges of the land valuers shall be borne by the TSP and shall form part of the RoW compensation cost.

4. **Compensation Rates:** (1) The compensation for tower base shall be as per RoW guidelines dated 14.06.2024.

(2) The compensation amount for Right-of-Way (RoW) corridor shall be as follows for ISTS lines:

- i. 30% of the land value in rural areas.
- ii. 60% of the land value in municipal corporations and metropolitan areas notified by the State Government.
- iii. 45% of the land value for municipalities, nagar panchayats and all other urban planning areas notified by the State Government.

5. The District Collector may allow the construction of ISTS lines to proceed without obstruction on the condition that compensation would be paid based on the market rate determined by the MRC. The market rate determination should ideally be completed within one month from the date of application by TSP.

Handwritten signature and date: 21/3/25

6. **Pass through by CERC:** If the actual RoW compensation paid by the TSP due to implementation of these guidelines or the extant guidelines /policy of the appropriate government differs from the base RoW compensation determined for the ISTS Scheme as per Tariff Based Competitive Bidding (TBCB) Guidelines, the same shall be eligible for pass through under Change in Law (CIL) by the Central Electricity Regulatory Commission.

Yours faithfully,

(Naorem Indrakumar Singh)
